Health-lovers also like
their furnishings to be wholesome!

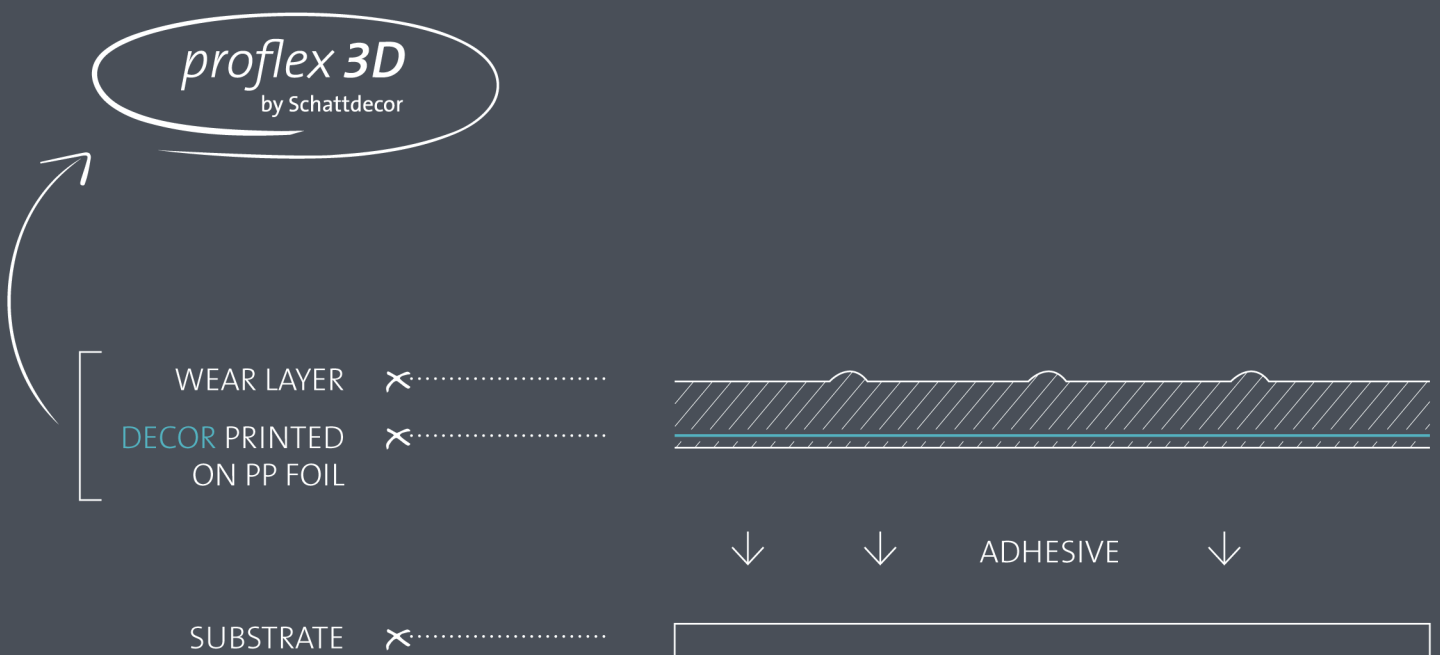

A healthy, balanced diet free of artificial additives is increasingly important in our everyday lives, leading to an improved sense of well-being. This growth in health awareness is reflected in the way we outfit our homes – after all, it's peace of mind we want in the four walls where we spend so much of our time.

The perfect recipe for your
health-conscious customers!

Coming in 100% feel-good quality, our innovative top coat for multi-layer modular flooring systems is non-toxic and thus makes an important contribution to ecological quality within the home. Proflex 3D is durable, easy to keep clean, warm on the feet and absolutely free of PVC, chlorine and plasticizers. Its textured, flexible surface ensures a pleasant look and tactile feel and enhances the natural effect of the decor.

All these outstanding properties enable Proflex 3D to ensure a natural, non-hazardous interior climate in ALL areas of the home.

And you benefit from the superb quality and decor expertise of the Schattdecor brand.
